Ray Young
Structured Cabling Solutions
10450 N.W. 31st Terrace
Miami, Florida 33172

Dear Ray,

I wanted to take a moment to tell you how much I appreciated the fine work your company did upon completing the cabling installation for the Miami-Dade County Health Department. Given the complexity of the job, your installers performed a textbook installation.

We have in excess of 18 years experience with network design and implementation and this installation was exemplary. I was glad you were able to convert the AMP components to Lucent components as I feel the quality of Lucent components are far superior.

I will continue to recommend you to clients who are looking for a quality-cabling company.

I look forward to talking with you again.

Best regards,

Dennis R. Deblois
President
