To Whom It May Concern:

Structured Cabling Solutions was our voice and data cabling subcontractor on the recently completed Leesburg Regional Medical Center Urgent Care and Administrative Building. This was our first project with them and we were extremely impressed with their responsive, professional, and knowledgeable crews. They did an excellent job. They are also working for us on an elementary school project in Orange County and we are equally impressed with their work on this site. We look forward to working with them on more projects in the future.

If you have any questions, please don't hesitate to contact us.

Respectfully,

Steven W. Strong
President
